

BENJAMIN HOFFMAN

bhoffman@ethz.ch | [LinkedIn](#) | [Personal Website](#) | Swiss & American Citizen

EDUCATION

ETH ZURICH

PhD Student in the Networked Systems Group | Affiliated Researcher at the ETH AI Center

Zurich, Switzerland

Feb. 2025 - present

- Current research: control, algorithms, and machine learning for large scale, complex systems and networks
- Supervised by Prof. Laurent Vanbever (ETH) and Prof. Gioele Zardini (MIT)

ETH ZURICH

MSc in Robotics, Systems and Control — GPA: 5.7/6.0

Zurich, Switzerland

Sep. 2022 - Dec. 2024

- Focus on control and machine learning

LUND UNIVERSITY

Academic Exchange Semester — GPA: 5.7/6.0

Lund, Sweden

Jan. 2022 - Jun. 2022

- Focus on control and machine learning

ETH ZURICH

BSc in Mechanical Engineering — GPA: 5.2/6.0

Zurich, Switzerland

Sep. 2018 - Aug. 2021

- Focus on mechatronics and control

KANTONSSCHULE WETTINGEN

Swiss Matura and IB Diploma — GPA: 5.7/6.0 (top 0.5%, salutatorian)

Wettingen, Switzerland

Aug. 2014 - Jun. 2018

- Major in law and economics, academic exchange semester at the Gymnase de Nyon (VD, Switzerland)

RESEARCH EXPERIENCE

NETFLIX

Incoming Research Intern — full time

Los Gatos, CA, USA

Jun. 2026 - Sep. 2026

- Research on learning-based algorithms for Low-Latency Live Streaming
- Supervised by Dr. Te-Yuan Huang

NETWORKED SYSTEMS GROUP — ETH ZURICH

Student Research Assistant — part time

Zurich, Switzerland

May 2024 - Dec. 2024

- Researched and evaluated state-of-the-art classical and learning-based ABR video streaming control algorithms
- Developed a network-trace collection and algorithm benchmarking system using Docker, Python, and AWS/Azure SDKs
- Supervised by Dr. Alexander Dietmüller and Prof. Laurent Vanbever

SEMESTER THESIS — NETWORKED SYSTEMS GROUP

Machine Learning Based Video Streaming Algorithms — Grade: 6.0/6.0 ([view here](#))

Zurich, Switzerland

Sep. 2023 - Jan. 2024

- Researched and evaluated state-of-the-art classical and learning-based ABR video streaming algorithms
- Developed a network-trace collection and ABR algorithm benchmarking system using Docker, Python, and AWS/Azure SDKs
- Supervised by Dr. Alexander Dietmüller and Prof. Laurent Vanbever

MASTER THESIS — ETH AI CENTER | LEARNING & ADAPTIVE SYSTEMS GROUP

Sample Efficient Model-Based Reinforcement Learning — Grade: 5.75/6.0 ([view here](#))

Zurich, Switzerland

Jun. 2024 - Dec. 2024

- Using model-based RL for efficient policy learning on a Boston Dynamics Spot quadruped with JAX, PyTorch, and C++
- Supervised by Jin Cheng, Chenhao Li, Dr. Bhavya Sukhija, Dr. Lenart Treven, Prof. Stelian Coros, and Prof. Andreas Krause

BACHELOR THESIS — COMPUTATIONAL ROBOTICS LAB

State Estimation for Legged Robots — Grade: 6.0/6.0 ([view here](#))

Zurich, Switzerland

Feb. 2021 - Aug. 2021

- Researched, developed and implemented different quadruped state-of-the-art state estimation algorithms using C++
- Supervised by Dr. Dongho Kang and Prof. Stelian Coros

WORK EXPERIENCE

BAIN & COMPANY	Zurich, Switzerland
Associate Consultant Intern — full time intern (return offer received)	Feb. 2024 - Apr. 2024
- Advised 3 industry leading firms and Fortune 500 companies on performance improvement and IT strategy projects - Conducted empirical research and analyzed large, unstructured datasets to formulate strategic recommendations	
ERANEOS	Zurich, Switzerland
Data Science Intern — full time intern (return offer received)	Jun. 2023 - Dec. 2023
- Worked on 5+ projects in finance and the public sector with a focus on ML & GenAI, LLMs, and data analytics - Developed custom LLM solutions and multi-agent systems using fine-tuned local LLMs, RAG, and OpenAI API	
GÜDEL GROUP	Bern, Switzerland
Robotics and Software Engineer — full time intern and part time working student (return offer received)	Aug. 2021 - May 2023
- Machine learning, data science and software engineering for robotics and industrial analytics - Transformed 3+ quality control procedures to ML-driven processes and rewrote the software for 4+ key applications	
ETH ZURICH	Zurich, Switzerland
Teaching Assistant for Analysis III and Dimensioning I — part time	Sep. 2020 - Jan. 2023
- Prepared and led weekly exercise sessions for 30+ students, graded assignments and exam supervision - Elected by students to lead a two-day exam preparation course with 30+ participants for Analysis III	

EXTRACURRICULAR EXPERIENCE

UNITED NATIONS – ETH STUDENT TEAM	Zurich, Switzerland
Project Lead	Sep. 2025 - present
- Building a voting-data processing pipeline and a user-facing visualization interface for all 3 main UN bodies - In charge of project management, leading a team of 5 software engineers, coordinating with UN stakeholders	
GLP SIGGENTHAL	Obersiggenthal, Switzerland
Board and Committee Member Member of Local Parliament	Aug. 2021 - present
- Board member in charge of communications and strategic planning, as well as local campaigns and initiatives - Member of local parliament (<i>since 2026</i>) and municipal environmental advisory body (<i>since 2022</i>)	
VEREIN LEGAL HELP (NGO)	Zurich, Switzerland
Board Member and Head of IT	Sep. 2022 - Sep. 2025
- In charge of strategic initiatives, maintaining long-term growth, as well as all technical and software related projects - Led an organization-wide (100+ users) software transition project resulting in savings of 5000+ CHF annually	

SKILLS & CERTIFICATIONS

PROGRAMMING	Python, C++, MATLAB, JavaScript
FRAMEWORKS	PyTorch, JAX, scikit-learn, Pandas, NumPy, SciPy, Docker, AWS/Azure, htsim, netUnicorn, tcpdump, Wireshark
LANGUAGES	English (Native), German (Native), Swiss German (Native), French (B2)
CERTIFICATIONS	J&S Coach Tennis & Snowboard, Certificate in Portfolio and Risk Management (University of Geneva, 2023)

INTERESTS

SPORTS	Competitive tennis player (coach and team captain), snowboarding, running, strong interest in health and fitness
OTHER INTERESTS	Public Policy, law and economics, global and local politics, nature and the environment
